

Make your baking a piece of cake: With the new kitchen scales from MEDISANA

Neuss, 08.12.2016. What would the Advent season be like without all those mouth-watering biscuits and little treats? However, you need the proper kitchen helpers to make your biscuits and sweet delicacies a piece of cake. The new kitchen scales from MEDISANA make sure your baking will be a joy – and not just during Advent of course. The select range consists of a total of five modern glass and stainless steel kitchen scales and has the perfect scale for every kitchen from the small and compact digital KS 200 up to the digital XL KS 240 all-rounder model with its extra high weight-bearing capacity. What's more, all the models, whether made of elegant and timeless glass or gleaming brushed stainless steel are of contemporary design and are real eye catchers in the kitchen. This feature won over Horst Lichter, the popular top chef and high-profile face and brand ambassador of MEDISANA kitchen scales.

The digital MEDISANA **kitchen scale KS 200** is small and compact and fits in absolutely every kitchen. Up to three kilograms in precise 1 gram increments can be weighed on the high-quality stainless steel weighing surface. When weighing several ingredients, the kitchen scales KS 200 can be reset to zero each time if necessary thanks to its practical tare function.

The digital **glass kitchen scales KS 210** is elegant and timeless. To ensure effortless success in the kitchen, it is equipped with sensor touch buttons, a large easy-to-read display and an easy-to-clean large, glass weighing surface which can weigh up to five kilograms. This also comes with the handy tare function. In addition, its flat construction helps save on space when it is stored away. And, for a particular design plus – the digital glass kitchen scale KS 210 is also available with strawberry, olive or apple motifs.

The digital glass **kitchen scale KS 220** is an all-round precision scales offering the best possible operating convenience. It can weigh different ingredients with up to a total weight of five kilograms. The weighing pan is made from safety glass and can be cleaned hygienically very easily. This also has the handy tare function. The digital glass kitchen scale KS 220 also comes with a practical time and temperature display as well as a timer function. This means you can

keep your eye on all the information you need for baking and cooking while you are weighing the ingredients.

Stylish with pure lines characterises the digital **kitchen scale KS 230**. Up to five kilograms can be weighed on the high-quality stainless steel weighing surface with sensor touch buttons. The weight can be read to the gram without difficulty thanks to the large easy-to-read backlit LCD display. This electric kitchen scale also has the handy tare function. Thanks to its flat construction and practical suspension device, the kitchen scale can be neatly installed or put away thus saving you space and it is always immediately to hand and ready to use.

The digital **glass kitchen scale XL KS 240** is an all-rounder with extra high weight-bearing capacity. Besides its traditional kitchen use, thanks to its exceptionally high weight-bearing capacity it can also be used for weighing packages. This scale can weigh up to 20 kilograms. It also comes with sensor touch buttons, an extra-large, easy-to-read display and an easy-to-clean Xtra Large glass weighing surface to ensure success every time. Its handy tare function means the glass kitchen scale XL KS 240 can be reset to zero each time if needed when weighing several ingredients.

The digital MEDISANA kitchen scale KS 200 costs €19.95 (RRP), the glass kitchen scale KS 210 costs €22.95 (RRP), the glass kitchen scale KS 220 costs €27.95 (RRP), the stainless steel kitchen scale KS 230 costs €34.95 (RRP) and the glass kitchen scale XL KS 240 costs €34.95 (RRP). They are available in specialist shops and from www.medisana.de.
